

Diversey™

TASKI® balimat 45

Manual sweeper

- Excellent cleaning result
- High productivity
- Ease of operation
- User friendly maintenance

Excellent cleaning results

The side brushes guide loose dirt (e.g. dust, sand, leaves, paper) from corners and edges to the main cylindrical brushes. These twin cylindrical brushes then transport the dirt to the waste hopper. The TASKI balimat 45 can be used on all hard floors, both indoors and out.

High productivity

The TASKI balimat 45 sweeper cleans up to five times faster than using a conventional broom. The side and main brushes can be adjusted to ensure a consistent and thorough cleaning result.

Ease of operation

The sweeper's light weight and large wheels ensure outstanding manoeuvrability for practically effortless cleaning. The compact design and collapsible handle enable easy and efficient storage.

User friendly maintenance

The TASKI balimat 45 has an easily detachable waste hopper for quick and convenient waste disposal. The quick connection system for the side brushes allow for quick and easy replacement without the need for tools.
