

TASKI[®]

The **ULTIMATE**
Cleaning Machines

TASKI Remote Guidance

The Remote Guidance solution from TASKI brings huge operational efficiencies along with with opportunities to significantly reduce total operating & service costs.

- Simply use through your chosen on-line device - either smartphone, tablet or laptop to hook-up real-time with our technical, training & service experts.
- Remote Guidance is a program that merges two real-time views bringing local and remote video streams together, augmenting collaborative assistance anywhere.
- Both users see the same thing on the screen and both users can interact in real-time.

TASKI Remote Guidance
