

**TASKI**

The ULTIMATE  
Cleaning Machines™

# Facility Management

TASKI machine solutions for the facility management and building service sector delivering exceptional operational efficiency, productivity, cost control and low cost of ownership.

### **Operational Efficiency**

TASKI machines will increase your operational efficiency through our innovation, superior productivity and fleet management tools. At TASKI we have a reputation for excelling in both cleaning results and productivity. Designs such as self-adjusting squeegee and easy-to-clean yellow maintenance points all add up to more available cleaning time. Our designers and engineers challenge convention, they optimise and innovate to achieve the ULTIMATE in cleaning excellence.

### **Profitable Growth**

We understand cleaning is your business and that you need to reduce your labour bill. By mechanising more of your cleaning we can help improve your profit or do more with the labour you have to impress your clients and retain business. We have developed innovations and technologies with you in mind.

### **Continuous Innovation**

We appreciate your sector is highly competitive and you need to differentiate. By using the latest technologies and the Internet of Clean you will improve client satisfaction and retention rates. Nobody has worked harder to connect more devices and make smart data available than TASKI. We lead the market with INNOVATION. Innovation is synonymous with TASKI.

### **People and Safety**

We know you have a duty of care to protect your team and customers to improve hygiene, air quality and floor safety. At TASKI we pay great attention to ensure our machines are ergonomically designed for the user. Folding and fully adjustable handles or steering wheels means user comfort is assured. Intuitive dashboard with common icons means little training is needed. All our dry vacuums are available with HEPA filters for superior air quality. We are known for our patented squeegees. Having the best water pick up means less stops, less re-cleans plus most importantly, less risk of slip falls.

### **Working Capital Optimisation**

We want you to invest smartly. At TASKI we will help you make your money work harder for you. We can demonstrate how to improve your ROI and shorten your payback. Our finance options include leasing and rental which means you can keep your capital for other investments. TASKI machines are designed to quickly pay for themselves, we know total cost of ownership is more important to you than simple purchase price. You are the expert and know you can often pay the price for buying cheaper options!

### **Sustainability**

As a responsible business you will have sustainability goals, your clients may also have expectations. Sustainability doesn't only mean Green, at TASKI it's Orange. Sustainability is at the heart of everything we do, it comes naturally to us. We have technologies to reduce utilities up to 76% to meet sustainability goals. Our vacuums reduce energy consumption, savings we can help you share with your clients.

## Signature products created with you in mind.

Our customers drive our business, it's part of our success. TASKI products are constructed with the highest quality components and are designed to last.

Innovate and improve your operational efficiency and bottom line. Manage your fleet remotely, do more with your time.

### IntelliPower

The power of lithium battery technology

- Latest lithium batteries for TASKI scrubber driers
- 30% reduction in total cost of machine and battery
- 3x faster charging
- 4x longer battery life

### IntelliTrail

Optimise your fleet

- Complete asset visibility
- Maximise ROI
- Maximise up time
- Save up to 15% of the asset value in labour

### IntelliTrail Analytics

Your virtual fleet manager

- Predictive analytics
- Automates fleet improvement suggestions
- Quantifying opportunities to save labour and investment costs
- Save up to 20% of your machine operating cost

**Make a step change in floor cleaning productivity. Why walk when you can ride?**

**Swingo 2100**

Micro ride-on scrubber drier

**Swingo XPR/M**

Stand-on scrubber driers

**Swingo 4000/5000**

large ride-on scrubber driers

- Huge productivity (3025 m<sup>2</sup>/hr)
- Twin brush for excellent cleaning results
- Large 75L tank for 5000 m<sup>2</sup> per fill
- Unique retractable offset cleaning function for edge cleaning
- Smaller footprint than larger traditional walk-behind machines

- Huge productivity (4500 m<sup>2</sup>/hr)
- 75cm working widths with 113L solution and 140L recovery tanks
- Multiple brush and pad options with powerful brush pressure
- Smaller footprint than traditional ride-ons
- Superb water pick up from patented squeegee. Twin pickups.

- Huge productivity (6375/7875 m<sup>2</sup>/hr)
- All-wheel steering for unbeatable maneuverability
- Multiple brush and pad options with powerful 122 kg of brush pressure
- Superb water pick up from patented squeegee. Twin pickups.
- Up to 6.5 hrs run time. Gel or Lithium batteries.

**Make a step change in vacuum productivity. Free up time for tasks that add value to your customers and your bottom line.**

**AERO UP**

Battery upright vacuum

**AERO BP**

Cable and battery backpack vacuums

**Jet 38/50**

Cable upright vacuums

**AERO 3500**

Ride-on vacuum/sweeper

- Latest Li-ion battery and digital motor technologies
- 1-hr run time / 1.5hr recharger time
- Powerful air flow
- Low noise (20% lower than average)
- High filtration (HEPA H13 option)
- Power brush option

- Superior efficiency, results and air quality
- Battery options for ultimate agility and productivity
- 1hr run time /1.5hr recharge time
- Superior airflow and low noise
- High filtration (HEPA option)
- Remote control

- Make the change to upright vacuums
- Wider working width for improved productivity (up to >50% than tub vacuum)
- Additional brush activation for better/deeper cleaning
- High filtration (HEPA option) for superior air quality

- Huge productivity (3500m<sup>2</sup>/hr)
- Twin brush for excellent cleaning result
- Large vacuum bag for expanded capacity
- Lithium batteries for long run time and reliability
- Extending accessories and hose for operational efficiency

**Mechanise your washroom & kitchen floor cleaning for cleaning excellence. Time to throw away the mop!**

**Swingo 150b**

Your first step into mechanised cleaning.  
An ultra-compact scrubber drier.

**Swingo 350b**

Small and compact scrubber drier

**Swingo 455b**

Small scrubber drier

- Lightweight and agile
- Height adjustable handle
- 3L tank and 33cm working width
- Removes water and soilage working forward and backwards
- Lithium battery for cable free cleaning
- Scrubs and dries leaving floors spotless and dry

- Roller brush and offset for edge cleaning
- Height-adjustable handle
- 10L tank and 38cm working width
- Removes water and soilage working forward and backwards
- Lithium battery for cable free cleaning
- Scrubs and dries leaving floors spotless and dry

- High productivity 1290m<sup>2</sup>/hr
- 22L tank and 43cm working width
- Lithium battery for cable free cleaning
- Height-adjustable handle for agility and storage
- Scrubs and dries leaving floors spotless and dry

**Improve your customer satisfaction scores and retention rates. Insource periodic tasks for increased revenue or to improve your bottom line. Upskill your team.**

**Ergodisc 200/Vacumat 22T**

Specialised machines for all floor care tasks

**Twister pads**

Diamond pads for hard floors

**Aquamat 10/20**

Ideal for spot cleaning and upholstery

**Procarpet 30/45**

Large carpet cleaning machines

- Heavy duty rotary machines
- Robust wet vacuums
- Comprehensive accessories for all tasks
- Machines for all floorcare tasks

- Comprehensive range of specialised pads to meet all floor conditions
- Expert advice and support
- Unique diamond technology
- System of pads to restore/renovate

- Extraction for deep cleaning
- Effective combination of extraction and exceptional suction
- Exceptional pay-back and ROI vs outsourcing

- TASKI procarpet machines are 2-in-1
- Unique encapsulation method for intermediate maintenance
- Foam method for fast drying
- Minimal disruption / downtime

Unique products created by TASKI for you, they combine tasks, increase productivity and efficiency and reduce unproductive time.

### IntelliSweep

2-in-1 one function sweeps and scrubs in one pass

### ToolStrap

Onboard tool holders

### Service Station 300

Fast filling for large scrubber driers

- Available on TASKI swingo XPM stand-on scrubber driers
- Save up to 30% in productivity
- The pre-sweeping function is eliminated

- Converts scrubber driers to hold signs, sweepers, cloth boxes and spot mops
- Like having a cleaning trolley and scrubber drier combined
- Increases productivity
- Ideal for janitor cleaning

- Greatly reduces unproductive tank refilling time
- 300L super-fast filling (75 sec.)
- Payback typically less than 12 months

**TASKI Solutions to make your money work harder, reduce total cost of ownership and deliver great ROI. Protect your assets with TASKI Service for reduced downtime, longer working life and improved residual value.**

### Finance

Flexible finance and purchase options

- Leasing or rental options
- Fixed-cost billing to include service
- Pool fleet and pay-per-use options
- Pre-used machines (subject to availability)

### Service

Service options to suit your needs and budgets

- Protect your assets and minimise downtime
- Extend the life of your assets and increase their residual value
- Our Bronze, Silver and Gold options are designed to match your risk level
- Save up to 30% on repair costs
