

TASKI[®]

The ULTIMATE
Cleaning Machines

Government
& Education

TASKI machine solutions for the government and education sectors takes care of your buildings whilst keeping the public safe.

Asset Protection

Your estate is a valuable asset to your establishment. TASKI has the solutions to protect your assets while improving their appearance. Your building fabric says a lot about your establishment and with TASKI machines you can safely vacuum floors, carpets and high level surfaces. With innovative 3-in-1 machines, our vacuums can convert to a blower to deal with leaves and debris. Ideas like this all help to reduce your costs.

Operational Efficiency

TASKI machines will increase your operational efficiency through our innovation, superior productivity and fleet management tools. At TASKI we have a reputation for excelling in both cleaning results and productivity. Designs such as self-adjusting squeegee and easy to clean yellow maintenance points all add up to more available cleaning time. Our designers and engineers challenge convention, they optimise and innovate to achieve the ULTIMATE in cleaning excellence.

People & Safety

We know you have a duty of care to protect your team and the public by improving hygiene, air quality and floor safety. At TASKI we pay great attention to ensure our machines are ergonomically designed for the user. Folding and fully adjustable handles or steering wheels means user comfort is assured. Intuitive dashboard with common icons means little training is needed. All our dry vacuums are available with HEPA filters for superior air quality. We are known for our patented squeegees. Having the best water pick up means less stops, less re-cleans and more importantly less risk of slip falls.

Cost Control

We want you to invest smartly. At TASKI we will help you make your money work harder for you. TASKI machines are designed to quickly pay for themselves, we know total cost of ownership is more important to you than simple purchase price. Our flexible finance, service & fleet management solutions will reduce your cost of ownership all within a fixed monthly budget.

Sustainability

As a responsible organisation you and your stakeholders will have sustainability goals. Sustainability doesn't only mean Green, at TASKI it's Orange. Sustainability is at the heart of everything we do. We have technologies which reduce utilities up to 76% to meet your sustainability goals. Our vacuums reduce energy consumption. We have fact based evidence, we can even help you share this data with your stakeholders.

Signature products created with you in mind.

TASKI products are constructed with the highest quality components and are designed to last. Quality, reliable machines that last will deliver a lower cost of ownership.

Our fleet management tools enable your assets remotely 24/7 even across a wide estate, do more with your time. Have the visibility to respond instantly to deploy machines where they are needed. IntelliTrail gives you that instant access to fleet management data.

IntelliPower

The power of lithium battery technology

- Latest lithium batteries for TASKI scrubber driers
- 30% reduction in total cost of machine and battery
- 3x faster charging
- 4x longer battery life
