

TASKI[®]

The **ULTIMATE**
Cleaning Machines™

Healthcare Acute Care

TASKI machine solutions, delivering infection prevention and safety for your patients and the public.

Brand Protection

You know how a clean and hygienic establishment is highly valued by your patients and the public. Creating a safe and hygienic environment is fundamental to protecting your patient's welfare whilst also safeguarding your brand. Transform your cleaning and mechanise more of your floor cleaning, time to throw away the dirty mop! Innovate and improve your operational efficiency with our IntelliTrail telemetry. Manage your feet remotely, move and track assets, know where your assets are 24/7. No matter what the challenge, be able to respond instantly and ensure your due diligence.

Patient Experience

First impressions count, make a change and mechanise your floor cleaning, it will transform the appearance of floors in patient rooms, wards and washrooms. Your patients will really notice the difference. Our Li-Ion powered vacuums and ultra-compact scrubber driers will save you time when cleaning patient rooms and bathrooms. That means more time for what really matters, looking after your patients.

Infection Prevention

At TASKI we have a reputation for excelling in both cleaning results and ergonomics. We design our machines to be easy to clean and disinfect. Features such as easy access to recovery tanks, easy to clean yellow maintenance points and tool free accessories all add up to a higher frequency of cleaning and superior hygiene. We are known for our patented squeegees. Cleaner, drier floors = safer floors. Intuitive dashboard with common icons means little training is needed. All our dry vacuums are available with HEPA filters for superior air quality.

People & Safety

We know you have a duty of care to protect patients and the public to improve hygiene, air quality and floor safety. At TASKI we pay great attention to ensure our machines are ergonomically designed for the user. Folding and fully adjustable handles or steering wheels means user comfort is assured. Intuitive dashboard with common icons means little training is needed. Our simple to use machines and on-line training aids makes training new team members easy. Having the best water pick up means less stops, less re-cleans but most importantly less risk of slip falls.

Cost Control

TASKI machines are designed to quickly pay for themselves, we know total cost of ownership is more important to you than simple purchase price. TASKI Solutions make your money work harder, reduce total cost of ownership and deliver great ROI. For complete peace of mind opt for one of our combined finance and service packages for fixed monthly costs from 1 to 5 years. Protect your assets with TASKI Service for reduced downtime, longer working life and improved residual value. Our comprehensive 25 x service checks will ensure your machine fleet is always fit for purpose, ready and safe for use.

Signature products created with you in mind.

Our customers drive our business, its part of our success. TASKI products are constructed with the highest quality components and are designed to last.

Be more effective, use the latest innovation technologies and products to improve operational efficiency. Manage your fleet remotely, do more with your team's time.

IntelliPower

The power of lithium battery technology

- Latest lithium batteries for TASKI scrubber driers
- 30% reduction in total cost of machine and battery
- 3x faster charging
- 4x longer battery life

IntelliTrail

Optimise your fleet

- Complete asset visibility
- Maximise ROI
- Maximise up time
- Save up to 15% of the asset value in labour

IntelliTrail Analytics

Your virtual fleet manager

- Predictive analytics
- Automates fleet improvement suggestions
- Quantifying opportunities to save labour and investment costs
- Save up to 20% of your machine operating cost

Make a step change in floor cleaning productivity. Why walk when you can ride?

Swingo 2100

Micro ride-on scrubber drier

- Huge productivity (3025 m²/hr)
- Twin brush for excellent cleaning results
- Large 75L tank for 5000 m² per fill
- Unique retractable offset cleaning function for edge cleaning
- Smaller footprint than larger traditional walk-behind machines

Swingo XPR/M

Stand-on scrubber driers

- Huge productivity (4500 m²/hr)
- 75cm working widths with 113L solution and 140L recovery tanks
- Multiple brush and pad options with powerful brush pressure
- Smaller footprint than traditional ride-ons
- Superb water pick up from patented squeegee. Twin pickups.

Swingo 4000/5000

Large ride-on scrubber driers

- Huge productivity (6375/7875 m²/hr)
- All-wheel steering for unbeatable maneuverability
- Multiple brush and pad options with powerful 122 kg of brush pressure
- Superb water pick up from patented squeegee. Twin pickups.
- Up to 6.5 hrs run time. Gel or Lithium batteries.

Make a step change in vacuum productivity. Free up more time for caring for your patients.

AERO UP

Battery upright vacuum

AERO BP

Cable and battery backpack vacuum

Jet 38/50

Cable upright vacuums

- Latest Li-ion battery and digital motor technologies
- 1hr run time / 1.5hr recharge time
- Powerful airflow
- Low noise (20% lower than average)
- High filtration (HEPA H13 option)
- Power brush option

- Superior efficiency, results and air quality
- Battery options for ultimate agility and productivity
- 1hr run time /1.5hr recharge time
- Superior airflow and low noise
- High filtration (HEPA option)
- Remote control

- Make the change to upright vacuums
- Wider working width for improved productivity (up to >50% than tub vacuum)
- Additional brush activation for better/deeper cleaning
- High filtration (HEPA option) for superior air quality

AERO 3500

Ride-on vacuum/sweeper

HEPA Filters

Improve indoor air quality with superior vacuum filters

- Huge productivity (3500m²/hr)
- Twin brush for excellent cleaning result
- Large vacuum bag for expanded capacity
- Lithium batteries for long run time and reliability
- Extending accessories and hose for operational efficiency

- Improve air quality in one simple low-cost step
- HEPA removes 99.95% of particulates <0.3 microns
- All TASKI dry vacuums are available with HEPA Filters
- Good filtration = good IAQ. Better filtration = better IAQ

**Mechanise more of your cleaning for improved productivity & cleaning excellence.
Make a step change make your floors cleaner and safer. Time to throw away the mop!**

Swingo 150b

Your first step into mechanised cleaning. An ultra-compact scrubber drier.
