

TASKI[®]

The **ULTIMATE**
Cleaning Machines

IntelliTrail[®]

Knowing today, ready for tomorrow

Your IntelliTrail key benefits

Cost reduction

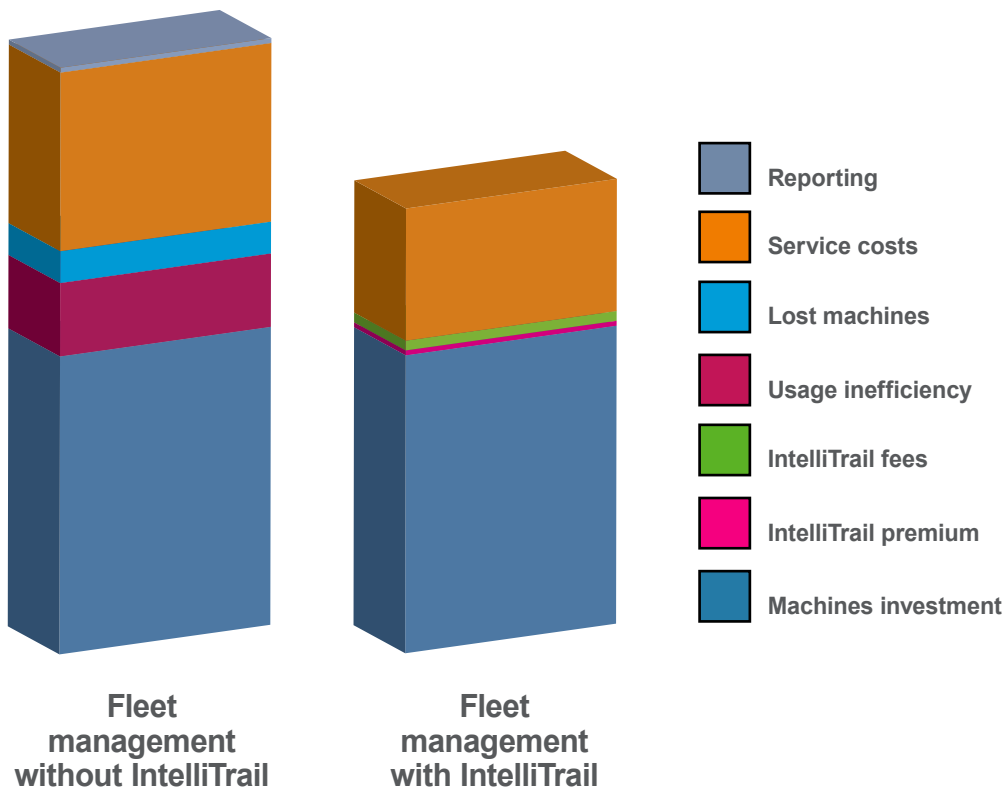

- **Prevent machine loss & theft:** An alarm is triggered when the machine leaves its predefined area
- **Optimize fleet size and utilization:** Optimize your fleet by monitoring its usage and utilizing IntelliTrail Analytics
- **Reduce total cost of ownership:** Right-size your machines, reduce operating and labour cost and save on service
- **Preventative maintenance:** Receive service when and where needed based on the machine's usage
- **Simplified administration:** Reduce your administration cost by automatically tracking all machines and their location

Risk mitigation: no machine loss, monitored use, less misuse

- **Full transparency:** Improved location and service monitoring. You always know where your machines are and if they are fulfilling their plan
- **Prevent damage and misuse:** Stay informed about sites any machine crashes or battery issues that occur

Quality proof

- **Ensure service levels fulfillment:** Check if your machines are fulfilling the service level and act right away
- **Peace of mind:** Focus on your core business. Your machines are taken care of
- Provide visibility and build trust with your partners

Puts you in control

Responding to key global trends and leading in the cleaning industry: Diversey has been providing intelligent solutions to enhance your company's success and improve full-service provider support.

TASKI IntelliTrail is more than a simple GPS tracking system. Next to the accurate geographical position, it shows the detailed operating hours and critical information about your scrubber drier and other important cleaning equipment.

This TASKI solution alone will lead your facilities to operational excellence and bottom-line optimization.

Full site transparency

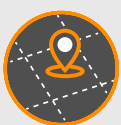

IntelliTrail's unique technology allows you to reliably track your machine's operations in real-time in a secure online platform. With more than 10.000 machines live online every day globally, IntelliTrail is the leading fleet management system in the cleaning industry.

The system allows you to track and act on a multitude of KPIs to ensure all machines are safely on site, used according to plan and prevent any misuse.

Key features

Geoposition & Geo-Fence

Receive an overview of the current and past locations of your machines in the IntelliTrail Dashboard.

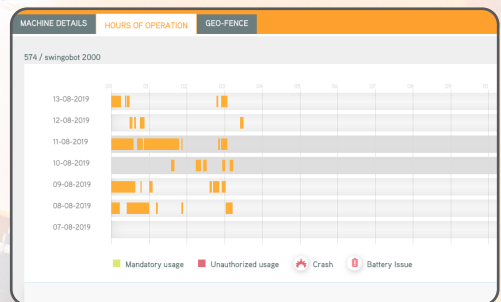

In combination with the Geo-Fence feature, it will allow you to completely track your machines and eliminate theft or loss.

Usage Overview

Usage Overview shows you how and when your machines are used. Additionally, it will show you whether your machines are used according to the plan.

Track and improve machines that are not used enough or used too much.

Analytics

Analytics give you live, up-to-date recommendations with an approximate savings amount to improve your fleet.

A machine is underutilized: Is there a chance to remove it?

A machine is overutilized: Is there a chance to upgrade it and save on labour cost?

Site	City	Machine	Number	Sta
South Bank	South Brisbane	swingo 5000	296259	Unde
Griffith University Gold Coast	Southport	swingo XP-R	211058	Unde
Woolworths Pemulwuy	Sydney	swingo 1850	11014	Mach than
Bluewater Square Shopping Centre	Redcliffe	swingo 1650	5002	Mach corre

Crash Alert

Asset protection at your fingertips. Quickly get notification when one of your machines collides with an object or if another objects runs into a machine. Proactively ensure machine functionality and availability immediately after a collision.

Time Plan

The Tme Plan allows you to scalably enter your service level agreement or planned usage and unauthorized usage time.

Battery Monitoring

Low battery notification levels will enable you to efficiently use your batteries and increase their lifetime dramatically to enhance the total cost of ownership.

Non-TASKI Tracker

The Non-TASKI Tracker allows you to track other important cleaning assets like 3rd party machines, sweepers or trolleys on the same platform with a similar feature set!
