

TASKI

The **ULTIMATE**
Cleaning Machines™

Manufacturing

TASKI machine solutions minimise disruption for your business and help keep costs under control.

Operational Efficiency

TASKI machines will increase your operational efficiency through innovation, superior productivity and fleet management tools. At TASKI we have a reputation for excelling in both cleaning results and productivity. Designs such as self-adjusting squeegee and easy to clean yellow maintenance points all add up to more available cleaning time. Our designers and engineers challenge convention, they optimise and innovate to achieve the ULTIMATE in cleaning excellence.

Profitable Growth

We understand cleaning isn't your core business. We know you need to control costs, by mechanising more of your cleaning we can help reduce time spent cleaning or do more with the labour you have to allow you to focus upon your core business. We have developed innovations and technologies with you in mind.

People & Safety

We know you have a duty of care to protect your team to improve hygiene, air quality and floor safety. At TASKI we pay great attention to ensure our machines are ergonomically designed for the user. Folding and fully adjustable handles or steering wheels means user comfort is assured. Intuitive dashboard with common icons means little training is needed. We are known for our patented squeegees. Having the best water pick up means less stops, less re-cleans but most importantly less risk of slip falls.

Working Capital Optimisation

We want you to invest smartly. At TASKI we will help you make your money work harder. We can demonstrate how to improve your ROI and shorten your payback. Our finance options including leasing and rental means you can keep your capital for your priority business investments. TASKI machines are designed to quickly pay for themselves, we know total cost of ownership is more important to you than simple purchase price.

Signature products created with you in mind.

Our customers drive our business, its part of our success. TASKI products are constructed with the highest quality components and are designed to last.

Innovate and improve your operational efficiency and bottom line. Manage your fleet remotely, do more with your time.

IntelliPower

The power of lithium battery technology

- Latest lithium batteries for TASKI scrubber driers
- 30% reduction in total cost of machine and battery
- 3x faster charging
- 4x longer battery life

IntelliTrail

Optimise your fleet

- Complete asset visibility

- Maximise up time
- Save up to 15% of the asset value in labour

IntelliTrail Analytics

Your virtual fleet manager

- Predictive analytics
- Automates fleet improvement suggestions
- Quantifying opportunities to save labour and investment costs
- Save up to 20% of your machine operating cost

Make a step change in floor cleaning productivity. Why walk when you can ride?

swingo 2100

Micro ride-on scrubber drier

- Huge productivity (3025 m²/hr)
- Twin brush for excellent cleaning results
- Large 75L tank for 5000 m² per fill
- Unique retractable offset cleaning function for edge cleaning
- Smaller footprint than larger traditional walk-behind machines

swingo XPR/M

Stand-on scrubber driers

- Huge productivity (4500 m²/hr)
- 75cm working widths with 113L solution and 140L recovery tanks
- Multiple brush and pad options with powerful brush pressure
- Smaller footprint than traditional ride-ons
- Superb water pick up from patented squeegee. Twin pickups.

swingo 4000/5000

Large ride-on scrubber driers

- Huge productivity (6375/7875 m²/hr)
- All-wheel steering for unbeatable maneuverability
- Multiple brush and pad options with powerful 122 kg of brush pressure
- Superb water pick up from patented squeegee. Twin pickups.
- Up to 6.5 hrs run time. Gel or Lithium batteries.

Unique products created by TASKI for you, they combine tasks, increase productivity and efficiency and reduce unproductive time.

IntelliSweep

2-in-1 one function sweeps and scrubs in one pass

ToolStrap

Onboard tool holders

Service Station 300

Fast filling for large scrubber driers

- Available on TASKI swingo XPM stand-on scrubber driers
- Save up to 30% in productivity
- Pre-sweeping function is eliminated

- Converts scrubber driers to hold signs, sweepers, cloth boxes and spot mops
- Like having a cleaning trolley and scrubber drier combined
- Increases productivity
- Ideal for janitor cleaning

- Greatly reduces unproductive tank refilling time
- 300L super-fast filling (75 sec.)
- Payback typically less than 12 months

TASKI Solutions to make your money work harder, reduce total cost of ownership and deliver great ROI. Protect your assets with TASKI Service for reduced downtime, longer working life and improved residual value.

Finance

Flexible finance and purchase options

- Leasing or rental options
- Fixed-cost billing to include service
