

TASKI

The **ULTIMATE**
Cleaning Machines™

Retail

TASKI machine solutions for the retail sector, giving you improved customer experience and cost control.

Customer Experience

You work hard to create a clean & safe shopping experience for your customers. You know how a clean and hygienic establishment is valued by your customers. First impressions count, make a change and mechanise more your floor cleaning, it will transform the appearance of your floors. Your customers will really notice the difference which will keep them coming back and stay loyal to your brand.

Operational Efficiency

TASKI machines will increase your operational efficiency through our innovation, superior productivity and fleet management tools. At TASKI we have a reputation for excelling in both cleaning results and productivity. Designs such as self-adjusting squeegee and easy to clean yellow maintenance points all add up to more available cleaning time. Our designers and engineers challenge convention, they optimise and innovate to achieve the ULTIMATE in cleaning excellence.

Cost Control

TASKI machines are designed to quickly pay for themselves, we know total cost of ownership is more important to you than simple purchase price. TASKI Solutions make your money work harder, reduce total cost of ownership and deliver great ROI. For complete peace of mind opt for one of our combined finance and service packages for fixed monthly costs from 1 to 5 years. Protect your assets with TASKI Service for reduced downtime, longer working life and improved residual value. Our comprehensive 25 x service checks will ensure your machine fleet is always fit for purpose, ready and safe for use.

People & Safety

We know you have a duty of care to protect your team and customers to improve hygiene, air quality and floor safety. At TASKI we pay great attention to ensure our machines are ergonomically designed for the user. Folding and fully adjustable handles or steering wheels mean user comfort is assured. Intuitive dashboard with common icons means little training is needed. All our dry vacuums are available with HEPA filters for superior air quality. We are known for our patented squeegees. Having the best water pick up means less stops, less re-cleans but most importantly less risk of slip falls for your customers.

Sustainability

As a responsible business you will have sustainability goals, your stakeholders may also have expectations. Sustainability doesn't only mean Green, at TASKI it's Orange. Sustainability is at the heart of everything we do. It comes naturally to us in TASKI. We have technologies which reduce utilities up to 76% to meet your business' sustainability goals. Our scrubber driers reduce energy, water and chemical consumption as well as reducing waste. These are savings we can help you share with your stakeholders.

Signature products created with you in mind.

Our customers drive our business, its part of our success. TASKI products are constructed with the highest quality components and are designed to last.

Innovate and improve your operational efficiency and bottom line. Manage your fleet remotely, do more with your time.
